

ACCLES & POLLOCK

Accles & Pollock 2024 Engineering Technician Apprenticeship Program!

We are delighted to announce that the application process for our 2024 Engineering Technician Apprenticeship Program is now open!

Our apprenticeships are designed to give you an insight into a wide variety of areas of work and the chance to explore where your skills and interests lie. As an apprentice you'll work across all engineering departments including engineering workshop, quality and our production shop floor to develop the skills and experience to become either a fully qualified **engineering technician** or **maintenance technician**, working in the world of engineering.

What you'll be studying -

You'll complete a 3-year, Level 3 Engineering Technician qualification - Technical Support pathway.

You will be required to attend the training centre, In-Comm Training Services in Aldridge, on a full-time basis for the first 12 months to undertake a variety of engineering training and theory work.

Following this, you'll work at Accles & Pollock in Willenhall, developing your on-the-job learning and on-site training.

Apprentices will complete a series of modules in order to gain the required knowledge, skills and behaviours of the apprenticeship standard, working towards the **End Point Assessment**.

As part of the program you receive -

- ✓ Full training, support and development
- ✓ A clear pathway for career development
- ✓ A wide range of benefits, incentives and perks
- ✓ 33 days' holiday per year (including bank holidays)
- ✓ Competitive salary

How do I apply?
